The Nutrition and Food Engineering Conference is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nutrition and Food Engineering.

Participants are invited to explore the full spectrum of latest trends and innovations in this ever increasingly important field of science. The multidisciplinary focus of this event aims to bring together distinguished presenters and attendees from different fields with expertise in various areas of Nutrition and Food Engineering, providing an excellent opportunity to participate in an international exchange for addressing problems within Nutrition and Food Engineering.

The program includes time allocated for networking, peer-to-peer discussions, and exploring the host city.

We invite the participation of leading academic scientists, researchers and scholars in the domain of interest from around the world to submit original research contributions relating to all aspects of:

- Food Science
- Food Analysis
- Food Chemistry
- Food Preservation
- Food Research
- Food Safety
- Food Engineering and Technology
- Food Fermentation and Enzyme Technology
- Flavor Technology
- Food Distribution and Transportation
- Food Marketing and Economics
- Food Materials Science
- Food Microbiology
- Food Packaging Technology
- Nutrition and Nutrition Science
- Food Science and Nutrition
- Public Health Nutrition
- Nutrition Education
- Nutrition Policy
- Socioeconomic Status and Nutrition
- Sports Nutrition
- Nutrition and Health
- Malnutrition and Obesity
- Nutrition Physiology
- Nutrient Drug Interactions
- Nutrient Metabolism and Nutritional Immunology
- Protein, Amino Acids and Nitrogenous Compounds
- Nutritional Disorders and Treatment
- Nutrition, Obesity and Diabetes
- Nutrition and Cancer Prevention
- Nutrition and Cardiovascular Health
- Pediatric Nutrition and Obesity
- Genetically Modified Foods and Nutritional Supplements
- Food Components, Properties and Reactions
- Next Generation Technology and Metagenomics in Food and Health
- Industrial and Modern Techniques of Food Preservation
